

ASTE 2011

Presenters: Emily Vanderpool and Erin Kavanaugh

Digital Tableau Assignment

- Your group will be assigned a reading and you will be creating a digital tableau to be photographed.
- Each person in your group must appear **at least** once in the scene
- You must have the posing complete and ready-to-go for each character represented
- You must have written thoughts for each character represented
- Props are encouraged but not necessary
- You must go **BEYOND** the obvious for the characters. What are their deepest thoughts and feelings at the *very moment* that is photographed?
- You have approximately 10 minutes to create your freeze-frame moment
- You will import the image into iPhoto, make any adjustments needed, and then insert the image into ComicLife and create a description of the scene, and creating thought bubbles for each character included in the scene.
- We will then upload it to the Virtual Learning Circles Wikis.
